FIND THE 2 DIGITS! SHEET 2

Tyger Salamander has stolen 2 digits from the pack of digit cards.

He tells the other salamanders that he will give them back if they can guess what number he has made with them.

He tells them:

- My number is more than 40.
- My 2 digits add up to 10.

What 2 digit number could he have made?

Find all possibilities.

FIND THE 2 DIGITS! SHEET 2 ANSWERS

Tyger Salamander has stolen 2 digits from the pack of digit cards.

He tells the other salamanders that he will give them back if they can guess what number he has made with them.

He tells them:

- My number is more than 40.
- My 2 digits add up to 10.

What 2 digit number could he have made?

Find all possibilities.

The 2 digit numbers he could have made are:

46 55 64 73 82 91

However, you can't make 55 from one pack of digit cards (as there is only one 5), so extra points for spotting that!
