## HOW MUCH TREASURE #2

Pirate Salamander has found a treasure chest with lots of gold pieces inside.

The chest is only large enough to hold a maximum of 40 gold pieces.

Pirate Salamander puts the gold in piles of 3 coins and finds that there are no coins left over.

He also finds that he has made more than 10 coins.

How many coins could there have been in the chest?

There are 10 possibilities - see how many you can find!
