

QUADRILATERAL AREA SHEET 2

Find the area of these quadrilaterals by splitting them up into rectangles and triangles. They are not drawn to scale.

Area = _____

Area = _____

Area = _____

Area = _____

Area = _____

Area = _____

Handy hints:

Area of a parallelogram = length \times perpendicular height

Area of a trapezium = $\frac{1}{2} \times (\text{length1} + \text{length2}) \times \text{height}$

Date

QUADRILATERAL AREA SHEET 2 ANSWERS

Area = 44 cm^2

Area = 40 m^2

Area = 77 mm^2

Area = 27 m^2

Area = 55 cm^2

Area = 270 mm^2 or 2.7 cm^2
