

ROW OF COINS CHALLENGES 3 B

Use the same coins (above) for both challenges.

CHALLENGE 1

Put the coins above in a row so that:

- the first three coins add up to 25 cents
- the last three coins add up to 36 cents
- the first coin is worth five times more than the last coin
- the middle coin is not the highest value coin.

CHALLENGE 2

Put the coins above in a row so that:

- the first and last coins add up to 35 cents
- there is one coin in between the two dimes
- the highest and lowest value coins are next to each other
- the second coin is not a penny.
